

J. Tolar

List of Publications

- [1] J. Tolar. A possible test of quantum electrodynamics by means of polarization effects in electron-nucleon scattering. *Czech. J. Phys.*, B 11:799–807, 1961.
- [2] J. Tolar. On the contribution of anomalous diagrams to the ground-state energy of nuclear matter. *Czech. J. Phys.*, B 14:1–4, 1964.
- [3] Z. Pluhař and J. Tolar. Transformation matrix for the isotropic harmonic oscillator eigenvectors in (n_1, n_2, n_3) and (nlm) representations. *Czech. J. Phys.*, B 14:287–293, 1964.
- [4] M. Bednář and J. Tolar. Dynamical group of the scalar $SU(3)$ -symmetric strong coupling theory. Technical Report E2-3044, SÚJV, Dubna, 1966. 21 pp.
- [5] M. Bednář and J. Tolar. The dynamical group of the $SU(3)$ -symmetric strong coupling theory. *Nucl. Phys.*, B 5:255–276, 1968.
- [6] J. Tolar. Dynamické grupy v $SU(3)$ -symetrické teorii silné vazby. 1968. Kandidátská disertační práce, FJFI ČVUT, Praha, 95 pp.
- [7] P. Exner and J. Tolar. On S -transformation in the strong coupling theory. *Czech. J. Phys.*, B 19:1480–1485, 1969.
- [8] J. Tolar. Mass operator in the $SU(3)$ -symmetric strong coupling theory with pseudoscalar mesons. *Czech. J. Phys.*, B 20:1093–1106, 1970.
- [9] J. Tolar. Mass operator in the $SU(3)$ -symmetric strong coupling theory with pseudoscalar mesons II. In P. Urban, editor, *Developments in High Energy Physics*, pages 610–619, Berlin, 1970. Springer-Verlag. Acta Phys. Austr., Suppl. VII (1970).
- [10] H.D. Doebner and J. Tolar. A multiplicity theorem for representations of inhomogeneous compact groups. *Commun. Math. Phys.*, 21:284–290, 1971. (ICTP Report IC/70/93, Miramare – Trieste 1970).
- [11] J. Tolar. Kvantová mechanika v homogenních prostorech. *Acta Polytechnica — Práce ČVUT v Praze*, (IV, 2):143–148, 1973. (II. vědecká konference ČVUT).
- [12] J. Niederle and J. Tolar. Partial-wave analysis of dilatation invariant relativistic S -matrix II. Two-body scattering matrix. *Czech. J. Phys.*, B 23:871–883, 1973.
- [13] J. Tolar. Partial-wave analysis of dilatation invariant relativistic S -matrix. In *New Developments in Relativistic Quantum Field Theory, Vol. 1*, pages 335–364, Wrocław, 1974. Acta Universitatis Wratislaviensis No. 207. (Proc. of the X-th Winter School of Theoretical Physics, Karpacz 1973).
- [14] J. Niederle and J. Tolar. Partial-wave analysis of dilatation invariant relativistic S -matrix I. Clebsch–Gordan coefficients for the Weyl group. *Repts. Math. Phys.*, 6:183–197, 1974. (ICTP Report IC/72/117, Miramare – Trieste 1972).

- [15] J. Tolar. Kvantová mechanika v homogenních prostorech. 1974. Habilitační práce, FJFI ČVUT, Praha, 103 pp.
- [16] J. Tolar. Tradiční a netradiční přístupy k přechodu od klasické ke kvantové fyzice. *Acta Polytechnica — Práce ČVUT v Praze*, (IV, 3):157–168, 1975. (III. vědecká konference ČVUT).
- [17] J. Tolar. On the mass condition in strong coupling theory. In D. Krupa and J. Pišút, editors, *Hadron Interactions at Low Energies*, pages 409–414, Bratislava, 1975. Veda. (Proc. of the Triangle Meeting in Smolenice 1973).
- [18] H.D. Doebner and J. Tolar. Quantum mechanics on homogeneous spaces. *J. Math. Phys.*, 16:975–984, 1975. (ICTP Report IC/74/102, Miramare – Trieste 1974).
- [19] J. Tolar. Quantization and deformation theory. In P. Kramer and A. Rieckers, editors, *Proc. VIth Internat. Colloquium on Group Theoretical Methods in Physics, Tübingen 1977*, pages 543–545, Berlin, 1978. Springer-Verlag. Lecture Notes in Physics, Vol. 79.
- [20] J. Tolar. Quantization and deformation theory. In H.D. Doebner and J. Tarski, editors, *Proc. Informal Meeting on Differential- Geometric Methods in Physics*, pages 176–185, Clausthal, F. R. Germany, 1977. Technical University of Clausthal.
- [21] J. Tolar. Quantization Methods. Technical report, Technische Universität, Clausthal, 1977. (Lecture notes, 82 pp.).
- [22] J. Niederle and J. Tolar. Remark on the transversal position operator for a massless particle. In J. Lánik and M. Noga, editors, *Hadron Constituents and Symmetries*, pages 347–351, Bratislava, 1978. Veda. (Proc. of the Conference in Smolenice, 1976).
- [23] J. Tolar. Quantization and deformation theory: identical particles. *Czech. J. Phys.*, B 29:319–322, 1979. (Proc. Symposium on Mathematical Methods in the Theory of Elementary Particles, Liblice 1978).
- [24] J. Niederle and J. Tolar. Quantization as mapping and as deformation. *Czech. J. Phys.*, B 29:1358–1368, 1979. (ICTP Report IC/79/140, Miramare – Trieste 1979).
- [25] H.D. Doebner and J. Tolar. On global properties of quantum systems. In B. Gruber and R.S. Millman, editors, *Symmetries in Science*, pages 475–486, New York, 1980. Plenum Press. (Proc. Einstein Centennial Celebration Symposium at Carbondale, Ill.).
- [26] H.D. Doebner, P. Šťovíček, and J. Tolar. Quantizations of the system of two indistinguishable particles. *Czech. J. Phys.*, B 31:1240–1248, 1981. (ICTP Report IC/81/116, Miramare – Trieste 1981).
- [27] H.D. Doebner and J. Tolar. Construction of position and momentum operators and Hamiltonians by embedding and submersion. *Lett. Math. Phys.*, 6:183–188, 1982. Addendum *ibid.* 6(1982), 511; Errata *ibid.* 8(1984).

- [28] B. Angermann, H.D. Doebner, and J. Tolar. Quantum kinematics on smooth manifolds. In S.I. Andersson and H.D. Doebner, editors, *Non-linear Partial Differential Operators and Quantization Procedures, Proc. of a workshop held at Clausthal 1981*, pages 171–208, Berlin, 1983. Springer-Verlag. Lecture Notes in Mathematics, Vol. 1037.
- [29] P. Šťovíček and J. Tolar. Topologie konfigurační variety a kvantová mechanika. *Acta Polytechnica — Práce ČVUT v Praze*, (6(IV, 1)):37–75, 1984.

- [44] H.D. Doebner and J. Tolar. Algebras and symmetries — quantum mechanical symmetry breaking. In B. Gruber, L.C. Biedenharn, and H.D. Doebner, editors, *Symmetries in Science V*, pages 137–146, New York, 1991. Plenum Publishing Co.
- [45] J. Tolar. Borel quantization and the origin of topological effects in quantum mechanics. In J. Hennig, W. Lücke, and J. Tolar, editors, *Differential Geometry, Group Representations, and Quantization*, pages 179–190, Berlin, 1991. Springer-Verlag. Lecture Notes in Physics, Vol. 379 ISBN 3–540–53941–7.
- [46] J. Tolar and H.D. Doebner. Allgemeine Form der Heisenbergschen Vertauschungsrelationen als Ausgangspunkt für eine Quantisierung. In B. Geyer, H. Herwig, and H. Rechenberg, editors, *Werner Heisenberg Physiker und Philosoph*, Heidelberg, 1993. Spektrum Akademischer Verlag. (Verhandlungen der Konferenz “Werner Heisenberg als Physiker und Philosoph in Leipzig”, 1991) ISBN 3–86025–033–7.
- [47] G. Chadzitaskos and J. Tolar. Feynman path integral with underlying noncommutative ‘geometry’ and quantum mechanics in external field. *Czech. J. Phys.*, B 42:1289–1292, 1992. (Proc. of Int. Coll. “Quantum Groups”, Prague 1992).
- [48] G. Chadzitaskos and J. Tolar. Feynman path integral and ordering rules on discrete finite space. *Int. J. Theoret. Phys.*, 32(4):517–527, 1993.
- [49] H.D. Doebner and J. Tolar. Quantum particle on a torus in a magnetic field. In S.T. Ali, I.M. Mladenov, and A. Odziejewicz, editors, *Quantization and Coherent States Methods*, pages 3–10, Singapore, 1993. World Scientific. (Proc. of XIth Workshop on Geometric Methods in Physics, Białowieża, 1992).
- [50] M. de Montigny, J. Patera, and J. Tolar. Graded contractions and kinematical groups of spacetime. *J. Math. Phys.*, 35:405–425, 1994.
- [51] G. Chadzitaskos and J. Tolar. Quantum mechanics on Z_M and q -deformed Heisenberg-Weyl algebras. In J.-P. Antoine, S. Twareque Ali, W. Lisiecki, I.M. Mladenov, and A. Odziejewicz, editors, *Quantization and Infinite-Dimensional Systems*, pages 231–235, New York, 1994. Plenum Press. (Proc. of XIIth Workshop on Geometric Methods in Physics, Białowieża, 1993) ISBN 0–306–44834–3.
- [52] J. Tolar and P. Trávníček. Graded contractions and the conformal group of Minkowski space-time. *J. Math. Phys.*, 36:4489–4506, 1995. (Preprint CRM–2261, Feb. 1995).

- [53] P. Hájíček, A. Higuchi, and J. Tolar. Group quantization of parametrized systems II. Pasting Hilbert spaces. *J. Math. Phys.*, 36:4639–4666, 1995. (Preprint BUTP-94/22, Bern).
- [54] J. Tolar. Quantum structures in the Hilbert space of finite dimension. In H.D. Doebner, P. Nattermann, and V.K. Dobrev, editors, *Nonlinear, Deformed, Irreversible Quantum Systems*, pages 288–295, Singapore, 1995. World Scientific. (Proc. of the Clausthal Symposium, 1994. Invited.) ISBN 981-02-2266-1, 450pp.
- [55] J. Tolar and P. Trávníček. Graded contractions of $so(4, 2)$. In J.-P. Antoine, S.T. Ali, W. Lisiecki, I.M. Mladenov, and A. Odziejewicz, editors, *Quantization, Coherent States, and Complex Structures*, pages 281–289, New York, 1995. Plenum Press. (Proc. of XIIIth Workshop on Geometric Methods in Physics, Białowieża, 1994).
- [56] J. Tolar. Graded contractions of Lie algebras: some physical applications. In H.-D. Doebner, V.K. Dobrev, and J. Hilgert, editors, *Lie Theory and Its Applications in Physics*, pages 226–238, Singapore, 1996. World Scientific. (Proc. of the Clausthal Workshop, 1995. Invited.) ISBN 981-02-2882-1, 275pp.
- [57] G. Chadzitaskos and J. Tolar. Finite-dimensional $*$ -product and matrix algebras. *Czech. J. Phys.*, B 46:151–154, 1996. (Proc. of IVth International Colloquium “Quantum Groups and Integrable Systems”, Prague 1995).
- [58] J. Tolar and P. Trávníček. Graded contractions of symplectic Lie algebras in collective models. *J. Math. Phys.*, 38:501–523, 1997.
- [59] J. Tolar and G. Chadzitaskos. Quantization on Z_M and coherent states over $Z_M \times Z_M$. *J. Phys. A: Math. Gen.*, 30:2509–2517, 1997.
- [60] J. Tolar and P. Trávníček. Graded contractions of $sp(3, R)$. *Repts. Math. Phys.*, 46:343–357, 1997. (Proc. of XVth Workshop on Geometric Methods in Physics, Białowieża, 1996).
- [61] G. Chadzitaskos and J. Tolar. Finite-dimensional $*$ -product and matrix algebras. In A. Strasburger, S. Twareque Ali, J.-P. Antoine, J.-P. Gazeau, and A. Odziejewicz, editors, *Quantization, Coherent States, and Poisson Structures*, pages 131–134, Warsaw, 1998. Polish Scientific Publishers PWN. (Proc. of XIVth Workshop on Geometric Methods in Physics, Białowieża, 1995.) ISBN 83-01-12758-9, 332pp.
- [62] J. Patera and J. Tolar. On gradings of Lie algebras and representations. In V.K. Dobrev, H.-D. Doebner, and J. Hilgert, editors, *Lie Theory and Its Applications in Physics II*, pages 109–118, Singapore, 1998. World Scientific. (Proc. of the Clausthal Workshop, 1997. Invited.) ISBN 981-02-3539-9.
- [63] J. Tolar. Quantum mechanics on phase spaces $Z_N \times Z_N$. In H.-D. Doebner, S.T. Ali, M. Keyl, and R.F. Werner, editors, *Trends in Quantum Mechanics*, pages 48–55, Singapore, 2000. World Scientific. (Proc. of the Goslar Conference New Insights in Quantum Mechanics, 1998. Invited.) ISBN 981-02-4081-3.

- [64] J. Tolar. Translation invariant quantizations on discrete phase spaces $Z_n \times Z_n$. In H.-D. Doebner, J.-D. Hennig, W. Lücke, and V.K. Dobrev, editors, *Quantum Theory and Symmetries*, pages 524–529, Singapore, 2000. World Scientific. (Proc. of the Goslar Conference, 1999. Invited) ISBN 981-02-4237-9.
- [65] J. Tolar. Graded contractions of Lie algebras of physical interest. In Y. Saint Aubin and L. Vinet, editors, *Algebraic Methods in Physics: A symposium for the 60th Birthdays of Jiří Patera and Pavel Winternitz*, pages 247–259, New York, 2000. Springer. CRM Series in Mathematical Physics, ISBN 0-387-95125-3.
- [66] J. Tolar. Quantum mechanics in finite-dimensional Hilbert spaces: Factorization properties. In M. Schlichenmaier, A. Strasburger, S. Twareque Ali, and A. Odziejewicz, editors, *Coherent States, Quantization, and Gravity*, pages 89–95, Warsaw, 2001. Warsaw University Press. (Proc. of XVIIth Workshop on Geometric Methods in Physics, “Coherent States, Quantization, and Gravity”, Białowieża, 1998.) ISBN 83-235-0066-5.
- [67] M. Havlíček, E. Pelantová, J. Patera, and J. Tolar. The fine gradings of $sl(3, C)$ and their symmetries. In A.N. Sissakian, G.S. Pogosyan, and L.G. Mardoyan, editors, *Proceedings of XXIII International Colloquium on Group Theoretical Methods in Physics, Vol. 1*, pages 57–61, Dubna, 2001. JINR.
